

PTD70: Mill House

Old mill with waterfall and 2,000m2 woodland

A little piece of heaven on earth! Stone mill with a good walls, roof and floors, with one large room on the first floor and 3 rooms on the ground floor.

The mill needs complete renovation and you could make an en-suite bedroom, second bedroom, living room, kitchen, and family bathroom.

It would be possible to divert the millstream to pass through the house if you fancy a little river under your living room!

At the back is a beautiful waterfall, and the mill comes with 2,000m2 (0.5 acre) of woodland.

Mains electricity and water nearby.

A little paradise in which to relax, sleep with sound of the water, take a bath in your own waterfall - it's a dream come true!

About 10 minutes from Miranda do Corvo.

Price: 70,000 euros
