8,000m2 lakeside plot for low impact living

Fantastic lakeside plot. 8,000m2 of terraced land with olive trees and vines, spring water and large steep area of pine and eucalyptus woodland. Incredible views.

A rare opportunity to purchase a plot bordering the Cabril lake. No permission would be given to build but it is the perfect retreat for yurts, benders or a tipi etc.

The lake water rises and falls according to the time of the year. For some months you can dive into the water or push off in the canoe directly off the bottom terrace wall. When the water is lower the walk is a mere 10 to 30 meters.

The land is terraced and has many olive trees and grape vines plus space for vegetable growing. For drinking water there is a natural spring. With the property comes a large area of hillside pine and eucalyptus woodland.

Mains electricity could not be connected - this is a place for low impact and adventurous people!

The access is approx. 1km on a good dirt track. It's 5km to the small market town of Pedrógão Grande.

This property could either be bought as a permanent idyllic retreat or simply as an "escape from it all" lakeside holiday plot.

Price: 20,000 euros
