

LIMA9: Castanheira Valley

1.5 hectare forest / farm plot with permission to build

Plot of land with permission to build up to 150m² and/or plenty of space for yurts and tipis, geodesic domes, caravans, etc.

15,000m² (1.5 hectares / 3.75 acres) with approx. 1 hectare of young eucalyptus trees (good income when they mature, plus the opportunity to replant with native species - with a little help from our tree planting scheme!) and approx. 0.5 hectare of abandoned farm terraces just waiting to be brought back into production.

There's a big spring with water that flows into a tank all year round - so there's no need to pump water.

Situated in a beautiful peaceful valley with excellent views.

Good access.

Nearby are permaculture projects and a weekly car boot sale.

Price: 9,500 euros
