

ADH1300: Quinta de Franco

5 bed mansion and 3 bed guesthouse on 1.8 hectares historic parkland

www.pureportugal.co.uk

A huge and luxurious property with incredible views, marble and hardwood flooring, all en-suite bedrooms, internal water feature, total privacy, walled grounds with swimming pool, guest house and ancient trees, 4km from Fundão.

This historic property was once a park that belonged to João Franco (the last prime minister of King D.Carlos) whose pure spring water (regadio) went down the hill for all to use. Now a mansion house stands on the 1.8 hectares of walled parkland, with wonderful far-reaching views over Fundão and the Serra de Gardunha.

The main house has an area of 1,214m² set over 3 floors consisting of a huge wine cellar, leisure area, garage for 8 cars, reception area, internal water feature/pool, marble and hardwood flooring, lounge, kitchen, dining room, office, 5 en-suite bedrooms, balconies, washroom, a further 3 toilets and a spacious round room at the top of the house with a very high round wooden vaulted ceiling.

Guest House with 3 bedrooms, lounge, kitchen and bathroom.

1.8 hectare walled grounds with many varieties of ancient trees, chestnuts, fruit trees, flowers, and lawns.

Outbuilding built around a tree (so as not to cut it down) which grows out of a corner of the roof!

Round swimming pool fed only by spring water.

This is a breathtaking property at a bargain price as the house alone cost hugely over the asking price to build.

Price: 1,300,000 euros
