

SRY129: Serpins Bungalow

Unique bungalow and studio apartment with courtyard and vegetable plots.

Detached bungalow and studio apartment in a tranquil mountain village. The bungalow is situated at the end of a tiny mountain village, 9 minutes from Serpins where there are local amenities. The village is near a gorge and river beach with stunning views of the Lousã Mountains and good walks.

The bungalow is fully modernised and designed by an artist which gives it a unique feel. The bungalow consists of a large open plan living room with dining space, a large kitchen with utility area, door to porch which has stunning views of the mountains, 2 double bedrooms and a family bathroom (with bath and shower).

The studio apartment has a large sun filled area with large picture windows and corner fireplace, also with a kitchen area and a wet room with toilet. There is also another large room which could be used as guest accommodation (it sleeps 4), and there are double doors which lead onto a gem of a large courtyard, which has been terraced, with flower beds, pond area, sitting area and outside kitchen space. This courtyard links the two buildings and is totally private. The courtyard leads onto a very peaceful private garden.

There is also a barn for renovation which could provide extra guest space.

There is good sized cultivated land which has many olive and various fruit trees, there is space for a tennis court and swimming pool, and there are lots of organic vegetable plots and flower gardens.

This is a unique property so if you are looking for something a bit different, then this could be for you!

Price: 129,000 euros
