

PTD25-1: Casa da Malhada

Large house for renovation on 1,000m²

The house has 2 parts - one is made from old stone and needs renovation, the other part of the house is new, and only needs some walls to divide it (2 bedrooms or 1 bedroom and living room). There's a WC ready. The house has 2 stores which you could convert to a kitchen, a WC, a bedroom, etc.

In the old part of the house there's work to recover it, but you can make a living room and 2 bedrooms, or whatever you want to do!

1,000m² (0.25 acre) land, great for growing some organic fruit and veg.

This house has a fantastic location on the top of a hill, from where you can see Penela and all the villages in the area. The air is pure, the trees are all around, the rivers sing with pure and fresh water.

Ideal project.

Price: 25,000 euros
